

DBL app development

Minutes for meeting 23/03/2015

Chair: Tasos

Secretary: Tomas

1. Opening
2. Additions to agenda
3. Design document

Not too much feedback : in the document.

4. Implementation

Perry working on matching algorithm.

Tasos working on UI.

Nick doing UI.

Ziad working on google maps.

Guus working on navigation.

Tomas working on dropdown and other UI elements like Lists of routes.

It would be possible (if running out of time) to drop chat implementation and choose to use google handouts.

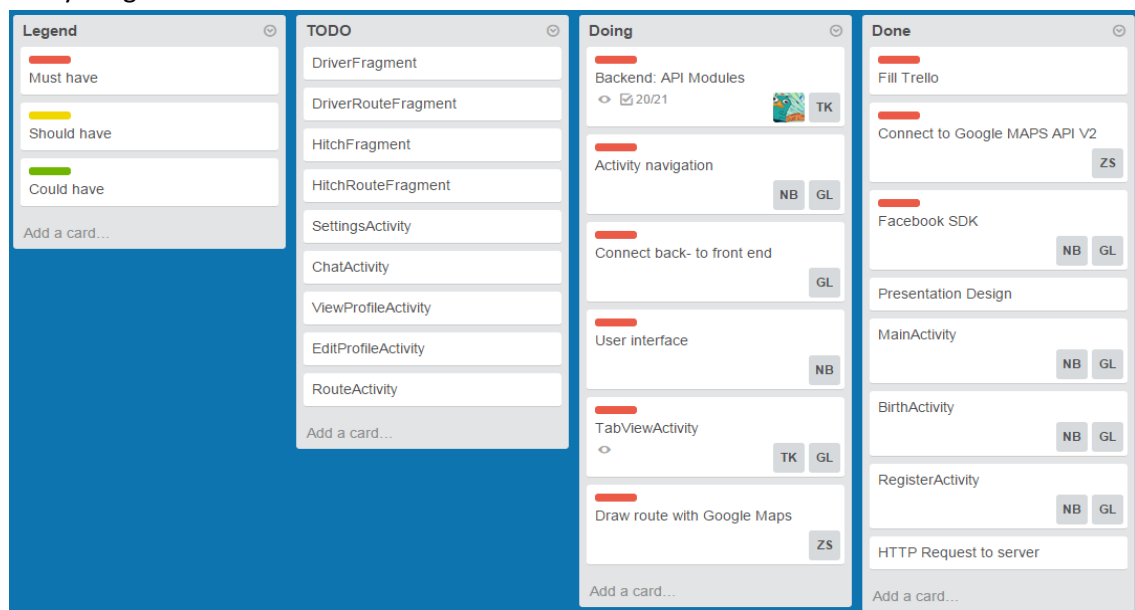

5. Test plan

One person for testing. Write a plan of how to check/test our application.

Specify everything in detail, write every possible step.

6. Work division

Everything is on Trello.

7. Final remarks

Continue working on app and head for finishing “must-have’s”.

8. Closing
